PROFESSIONAL SUMMARY

Fresh Economics graduate (GPA 3.85/4.00, Cum Laude) with demonstrated ability to analyze complex data, identify business opportunities, and deliver solutions that drive organizational decisions. Built two end-to-end data systems adopted by management as primary operational tools. Proven track record of leading cross-functional teams, communicating analytical findings to non-technical stakeholders, and thriving in ambiguous, fast-changing environments. Passionate about the energy transition and the role of data-driven strategy in shaping Indonesia's sustainable future.

PROFESSIONAL EXPERIENCE

PT Intan Pariwara

January 2026 – Present

Business Intelligence & Marketing Support Intern | Klaten, Central Java

- Designed, built, and deployed a full-stack Sales Funnel CRM (Next.js + Supabase/PostgreSQL + Vercel) adopted as the primary management monitoring tool — delivering real-time KPI visibility and pipeline analytics across the national sales team.
- Engineered an automated Python data pipeline to collect and process government procurement data (SIRUP) across all 514 districts in Indonesia, enabling national-scale market sizing and business opportunity scoring that previously required weeks of manual research.
- Translated business requirements from sales and management stakeholders into system specifications and dashboard features, iterating based on structured feedback cycles — reducing reporting cycle time and improving decision quality.
- Developed Power BI and Tableau dashboards for competitor benchmarking and regional performance analytics; findings directly incorporated into strategic business planning.

Pintar.co (MSIB Batch 6, Kemendikbudristek)

February – June 2024

Business Intelligence Intern | Remote

- Conducted end-to-end analysis on large consumer datasets using SQL (joins, CTEs, window functions) to define KPI logic, validate data pipelines, and build reporting infrastructure for senior leadership.
- Developed real-time Tableau dashboards tracking user behavior trends across product and growth functions; presented analytical findings directly to senior leadership to support product decisions.
- Collaborated cross-functionally with product, engineering, and business teams to align analytics outputs with operational and strategic needs.

PT Telkomsel

January – May 2024

Youth Digital Administrator Intern | Surakarta

- Monitored compliance and tracked performance metrics for 70 program participants across regional targets, identifying gaps and escalating corrective strategies to management.
- Managed and verified high-volume daily transaction records in Excel, maintaining audit-ready documentation and ensuring data accuracy.
- Compiled and delivered weekly analytics reports to supervisors, enabling timely strategy adjustments across regional operations.

KEY PROJECTS

Government Procurement Intelligence Pipeline (SIRUP)

2025 – 2026

PT Intan Pariwara | Python, DuckDB, SQL

- Independently engineered a scraping and analysis system covering 514 kabupaten/kota with session authentication, anti-fail resume capability, and SQL-based analysis — used for lead scoring and national market sizing at Intan Pariwara.

Sales Funnel Management System (CRM)

2026

PT Intan Pariwara | Next.js, Supabase, PostgreSQL, Vercel

- Independently scoped and built a production-grade internal CRM web application from prototype to full-stack deployment, delivering real-time pipeline visibility and multi-user data management for the national sales team.

Chief Executive — Indonesia Day 2023

2023

Universitas Negeri Malang | Cross-functional Leadership

- Led a cross-functional team of 8 divisions in organizing a national-scale cultural event; managed budget allocation, resolved inter-division conflicts using data-backed proposals, and delivered the event on schedule and within budget.

EDUCATION

Universitas Negeri Malang

2021 – 2025

Bachelor of Science, Economic Development | GPA 3.85 / 4.00 | Cum Laude

- Thesis: VECM time series modeling on macroeconomic transmission (interest rates, inflation, exchange rate dynamics) using EViews.
- Best Participant — BESS 2025 International Conference: co-authored research on digital software adoption behavior using TAM framework.

SKILLS & CERTIFICATIONS

Analytics & Data: Python (pandas, BeautifulSoup, requests), SQL, R, EViews, DuckDB, statistical & econometric modeling

Visualization & Reporting: Tableau, Power BI, Chart.js, web dashboard development

Business & Strategy: requirements analysis, KPI definition, stakeholder communication, project delivery, cross-functional collaboration

Certifications: Business Intelligence with Tableau — Kemendikbudristek MSIB (2024) | AI-volution Workshop — U.S. Embassy Jakarta (2025)

Languages: Bahasa Indonesia (Native) | English — TOEFL 537 (Advanced), ELTI Gramedia (2025)
